ADDITIONAL SHEET CONTAINING STATEMENT  
ESTABLISHING UNINTENTIONAL DELAY

The applicant-inventor, Mr. Joseph A. Pringle, is disabled and is unable to hold a job. Despite this, he has been quite diligent in pursuing this matter throughout the years since the application became abandoned for failure to pay the issue fee. The original failure to pay the issue fee was a result of Mr. Pringle's inability to pay the fee and for the past services in connection with prosecution of the application. Mr. Pringle never intended to abandon the application, and since that time has worked hard in attempting to find the required financial backing to enable reviving the application as well as commercializing of the invention. In this regard, he has provided for the use of various listings (Recyclers World, Green Pages, etc) and has worked with several companies over the years, including a company in Nevada that appeared to be quite interested at one point. Other interested parties included power plant owners in various locations and numerous others (including Senator Miller from Arkansas). Despite his untiring efforts, Mr. Pringle has only very recently been able to obtain the required funding.
